

Why worry about
teeth sensitivity
when you have

Dr. Jaikaran®

Thermodent®

***Thermodent** is a daily use sensitive care toothpaste specially formulated to provide fast and long-lasting relief from tooth sensitivity while promoting overall oral health. Designed for people experiencing discomfort from hot, cold, or sweet foods, this advanced toothpaste works by forming a protective barrier over sensitive areas of the teeth.*

Its gentle yet effective formula not only soothes sensitivity but also helps strengthen tooth enamel and maintain healthy gums. With 5% Potassium Nitrate and other natural ingredients like Saunf, Lavang, Satpodina, and Kapur, Thermodent offers complete protection and a refreshing mouth feel along with cooling and soothing effects, making it suitable for daily use.

Key Benefits of Thermodent :

- *Provides relief from tooth sensitivity caused by hot, cold, or sweet stimuli.*
- *Helps reduce tooth pain and discomfort.*
- *Fortified with anti-microbial & gum strengthening herbs.*
- *Acts as a natural mouth freshener.*
- *Offers soothing and cooling effects for gums and teeth.*
- *Supports enamel strengthening and overall oral health.*
- *Helps prevent dental cavities.*
- *Use regularly for maintaining a confident and sensitivity-free smile.*
- *Does not contain fluoride and paraben.*

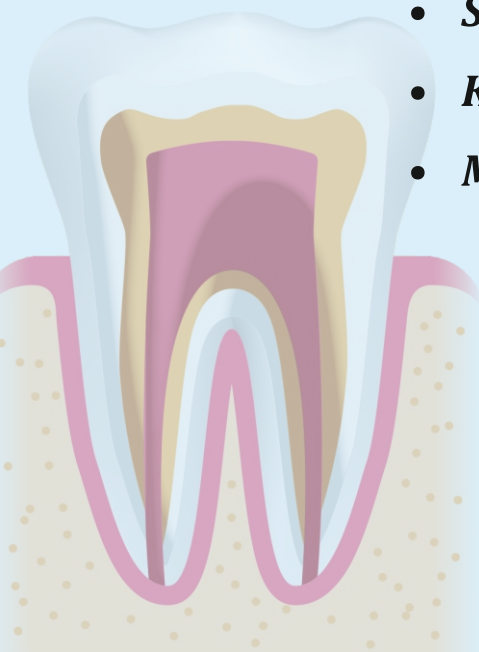

Dr. Jaikaran®
Thermodent®

Ingredients :

Potassium Nitrate 5%, Extracts of Saunf, Lavang, Satpodina, Kapur in toothpaste base containing Sorbitol, Precipitated Silica, Glycerine, Sodium Lauryl Sulphate, Polyethylene Glycol, Sodium Benzoate, Sodium Saccharine, Methyl Salicylate, Sodium Carboxymethyl Cellulose, Aqua and Cl42090.

Active Ingredients :

- ***Potassium Nitrate*** : helps calm the nerves inside the teeth. It works by reducing the pain signals caused by hot, cold, or sweet foods. With regular use, it provides effective and long-lasting relief from tooth sensitivity.
- ***Saunf*** : acts as a natural mouth freshener.
- ***Lavang*** : is a natural remedy for toothache.
- ***Satpodina*** : provides soothing and cooling effects.
- ***Kapur*** : relieves pain and reduces itching
- ***Methyl Salicylate*** : helps reduce tooth pain.

Why Thermodent?

*Unlike other medicated toothpastes for sensitivity, **Thermodent** is designed for everyday, long-term care of sensitive teeth. It works on sensitivity while also helping keep your gums healthy and your mouth clean in one simple routine. It combines modern dental science with trusted natural ingredients, making it both effective and gentle. The formula is suitable for daily use and leaves your mouth feeling clean, fresh, and comfortable after every brush.*
